

Technology Products — Barcode Scanners

Item 12707 & 12708

A

Item 12717

B

A Portable Bar Code Scanner

- Portable data collection terminal, designed for all-day use. The compact design allows full single-handed operation, ease of use, and durability
- A brightly lit LCD graphics screen with built in contrast control allows the user to adjust the brightness of the screen, enabling it to be read perfectly, in all lighting conditions
- Using only 2 standard 'AAA' batteries, the CPT-711 provides over 100 hours of operation. The 1MB sramm allows for approximately 50,000 records to be stored in the CPT-711's memory
- Uploading the collected data is quick and easy via the keyboard cable

Item 12707.....Portable Bar Code Scanner (Attendance)

Item 12708.....Portable Bar Code Scanner (Fixed Assets)

1-Year warranty from purchase date

ACS 7.0 and later, gives Attendance and Fixed Assets users the ability to use the ACS Portable Bar Code Scanner. Call for details.

B Bluetooth® Bar Code Scanner

Save time by quickly marking attendance using wireless bar code scanners. Interfaces with People Suite, Financial Suite, and HeadMaster.*

- Use it to mark attendance quickly
- A quick scan will mark your "P's" or "A's" for a particular class
- Works with bar-coded Offering Envelopes to speed up contribution posting
- Can transmit at up to 300 feet from its base station.
- Comes complete and ready to use, with a full one-year warranty.

**Does not work with Fixed Assets*

Item 12717.....Bluetooth® Bar Code Scanner—USB Base

1-Year warranty from purchase date

System requirements:
Windows XP or higher with USB 2.0 port

C Fusion® Omnidirectional Laser Scanner

The Fusion® is a lightweight and ergonomic hand-held scanner capable of omnidirectional and single-line bar code scanning. It's ideal for churches with busy check-in stations and schools or child care facilities that mark attendance. Plus, there are no software drivers to load – just plug and play!

- Scan bar codes in any orientation
- Push button targeted single-line scanning option
- Hands-free operation, reducing operator fatigue
- Multiple sleep modes with IR (infra-red) wake up
- Mountable stand with three locking positions
- User configurable depth of field
- Easy bar code configuration

Item 12891.....Fusion® Omnidirectional Scanner

1-Year warranty from purchase date

Technology Products — Check Readers

A MICRImage™ Check Reader

The MICRImage™ Check Reader is both a MICR Reader (Magnetic Ink Character Recognition) and a check-imaging device. The MICRImage reads the MICR character set at the bottom of a check, and the Imager produces a digitized image of the front of the check.*

- Accepts both large and small format checks
- Handles multiple accounts per record
- Automatic parsing of MICR fields: transit, account, etc.
- Send complete image or user-specified portions
- Add new accounts as needed without leaving the posting screen
- Comes complete and ready to use, with a full one-year warranty

**Requires ACS 7.0.1.5 or later*

Item 12712.....MICRImage™ Check Reader*

**cannot be used with a terminal server or ACS 6.0 or OnDemand Services*

Item 12713MICRImage™ Check Reader USB converter*

**Clients needing a USB connection for the MICRImage Check Reader will need to purchase this item and be running ACS 8.0.1.3*

Item 12712

B ACS Check Reader

Scan checks with a quick pass through the ACS Check Reader. Proper donor records automatically display in ACS Contributions and ACS Accounts Receivable. Simply enter the amount and fund, and move on to mark the next donation.

Item 12730.....ACS Check Reader– USB
(use with ACS 2006)

Item 12730

“We are so happy using PhoneTree to get messages out to our members. PhoneTree allows us to communicate with our members while freeing us up to complete other tasks.”

Technology Products — Label Printers

LabelWriter Turbo

A

Compact, lightning-quick, easy to use – the ACS LabelWriter is the fastest label printer in its class. The LabelWriter prints high-resolution security name badges– directly from ACS Checkpoint.™

- Eliminates the hassle of printing labels with a standard office printer.
- Direct thermal printing means you never change a ribbon, toner or ink cartridges.
- Super fast print speed. About 1 second per label, 55 labels per minute. Very quiet.
- High resolution (300 dpi) printing means crisp text, graphics, photos and bar codes.
- Connects to a USB port. Cable included.

Item 12890LabelWriter Turbo

1-Year warranty from purchase date

Item 12890

Item 12880

B Zebra Label Printer

Versatile, powerful, and robust—the ACS Zebra Label Printer delivers exceptional performance and unparalleled productivity with lightning quick speed. The Zebra is ideal for Checkpoint users with high volume printing needs.

- Equipped with a 32-bit microprocessor for fast label printing
- Direct thermal printing means no more problems with ribbons, ink, or toner cartridges
- Print labels up to 4 inches wide
- Serial, parallel, and USB interfaces
- Easy to use--clear media window for simple media loading and monitoring

Item 12880Zebra Label Printer

1-Year warranty from purchase date

Technology Products — Phone Message Systems

A PhoneTree 2100

The PhoneTree 2100 is an easy-to-use, affordable single-message calling solution, offering many advanced features with the flexibility of multiple phone lines. Operation is so simple, you can start calling within minutes of taking the unit out of the box. You just record another message for the next job, import your list and start calling.

- Multiple area codes? Long-distance or local? Metro dialing? PhoneTree's dialing translator easily handles any type of number.
- If the line is busy or no one is home, PhoneTree "remembers" to try again later, attempting busy lines sooner than those not answered, just as you would.
- By using multiple phone lines, you can reach large numbers of people in a fraction of the time otherwise required for a person to make the same number of calls.
- Make sure your calls aren't lost in the "kid zone" by having call recipients press "9" to play your message after hearing your greeting.
- Comes as a one line unit, with the option to purchase an additional line.

Item 12760.....PhoneTree 2100 (USB)

Item 12759.....Additional Lines

Item 12780

B PhoneTree 2500

With a host of features for a wide variety of applications, PhoneTree 2500 is the best choice for busy, growing organizations who need both power and flexibility. PhoneTree 2500 has the unique ability to allow multiple call sessions at one time – even if using only one phone line. There is no need to wait to finish a call job before starting a new one – the 2500 can handle all your calls at once.

- Reach large numbers of people quickly with multiple simultaneous call sessions using up to 32 phone lines at once.
- Choose which job is called first, in case of emergencies or other time-critical situations.
- Receive feedback via touch-tone reply: "Press '1' if you can attend Saturday's picnic ... Using your touch-tone keypad, enter the number of guests you plan to bring ..."
- Start calls from any computer on your network – no need to work from only one PC.
- Send companion e-mail and text messages along with your calls at the same time, giving your messages the best chance of getting through.
- Full-featured multilingual capability allows you to send messages in different languages within one call session.
- Comes as a one line unit, with the option to purchase additional lines.

Item 12770.....PhoneTree 2500 (USB)

Item 12759.....Additional Lines

C PhoneTree 3500

The PhoneTree 3500 is a full-featured, fully-customizable, and complete telephone messaging solution. Unique to the 3500 is PhoneTree's Flex Fields feature, which lets you construct messages section-by-section, based on your existing data. Along with all the features of the 2500, plus unlimited list capacity, unlimited calls per session, text to speech, full remote access and custom call-in information lines, the PhoneTree 3500 is an automated messaging powerhouse.

- Flex Fields let you deliver flexible messages like, "Hello. This is Dr. Jones calling for [NAME] to remind you of {EVENT} on [DATE] at [TIME]."
- Reach large numbers of people quickly with multiple simultaneous call sessions using up to 48 phone lines at once.
- If a call is at first unanswered, you can attempt alternate phone numbers (cell, pager, etc.).
- Make a professional, memorable impression on those being called with highly-personalized messages, requiring only minimal setup.
- Comes as a two line unit, with the option to purchase 46 additional lines.

Item 12780.....PhoneTree 3500 (USB)

Item 12759.....Additional Lines

Reach more people in less time!
